ZAS-130

The ZAS-130 system from ZŌN is a new, economical way to experience the distributed audio quality only ZŌN can deliver. This system is ideal for projects where capability and value are critical design elements.

Part of ZŌN's Structured Wiring Solutions, this pre-packaged, ready to install system combines one ZR-14 Single Source Router, four ZAC-30jr Controller/Amplifiers and one ZIM-4 Input Module. Multiple systems can be linked together to create a system of most any size. The optional ZSR-4 System Remote brings control of tone, balance, loudness and EQ for each zone right to your fingertips. An on-board IR receiver allows remote control of the audio source from any controller location.

Now There's
A ZŌN
For *Every* Home!

Features
• Expandable 4 Zone Single Input System
• Full Digital Signal Path for Ultimate Sound Quality
• Stylish 30-Watt In-Wall Controller/Amps
