

Distributed  
Digital Audio  
and Control

Control your home theater, video projector, video switcher and home automation devices directly from the ZAC-60 Controller/Amplifier, plus get crystal clear digital whole house audio ... only from ZON. The company that pioneered digital audio for motion picture theaters now offers a new generation of device controller that lets you truly master your domain. The ZON Device Commander seamlessly integrates with the ZON Controller, offering beauty, brains and a whole lot more:

- Pre-programmed with extensive library of most popular home theater and multi-media devices
- IR learning functions
- Stores hundreds of macros in on-board, field updatable non-volatile memory
- Occupies a single ZON Router Expansion Bay
- Bi-directional RS-232 port
- Execute a series of complex commands with one button press
- **Free** configuration software

## Be the Master of Your Domain.

Digital, powerful, beautiful and now *really, really* smart. Experience whole house digital audio and master your domain with ZON.
